Residents of the borough are not yet tired of talking of the big parade and patriotic demonstration, arranged under direction of Chairman of the Local Council of Defense, J. J. Sullivan. His theme was Victory or Servitude? and he won hearty applause by his able and vigorous treatment of the subject.

As previously noted, all the other speakers made eloquent and telling addresses showing Chairman Sullivan's wisdom in selecting them for his programme.

**Junior Liberty Chorus All Tuned Up to Sing at Prize Speaking Contest—Big Goshawk Shot at Hopedale—Bond Sales Reach Encouraging Total of \$43,400.**

The singing of the Junior Liberty chorus Monday night at 8 o'clock at the prize speaking in Assembly hall at Hopedale grammar school will be a feature. There are 50 children in the chorus, and under the instruction of Miss Hodgkinson they sing wonderfully well. America, My Country, a new national anthem, said to be the greatest patriotic song-poem of the war, is one of the selections. It received the applause of congress when Hon. Isaac Siegal of New York quoted it in his patriotic speech on the day war was declared. The National Educational association sang it at Red Wing and Minneapolis, and Superintendent Swift brought it from Atlantic City for this chorus to sing. Another selection is Canning the Kaiser, sung to the tune of Marching Through Georgia. The ginger the chorus puts into that music is fine. This is probably the first school Junior Liberty chorus organized in the state. The rehearsal for the evening of the program will be heard by the school children in the afternoon. No child will be admitted in the evening unless accompanied by parents. The order of the selection of the place in the program of the speakers was made by drawing lots.

**Gray-Dunham Marriage—Norman B. Phillips Writes of Experiences as Guard Facing No Man's Land.**

Attorney R. H. Fisk was the "four minutes" speaker at the pictures last week.

The marriage of Miss Ruth M. Dunham and Earl Gary took place at the home of the bride's parents, Mr. and Mrs. J. C. Dunham, on Thursday afternoon at 2 o'clock. During the afternoon Mr. and Mrs. Gary left for a short trip which included Hartford and Boston. For several years the bride has been primary teacher in the primary grammar school and is a reader of recognized ability. The groom is in the first class and will probably shortly be called to the colors. He is now employed by C. B. Pinney as chauffeur. They were married by Dr. C. H. Puffer.

**Writes of Trench Experiences.**  
The following letter is from Norman Phillips:  
Somewhere in France.

Dear Friend: How is everything in good old Stafford? By the letters and papers from home you must have suffered some from the cold and snow. It was awful cold over here for a couple of months, but most of the time it was rain and then the mud was any-where from three to four inches deep, but it is much warmer now and the ground is drying up fast.

I have been in one battle with the Boche, as we call the Germans, and believe me it sure was hell, if it didn't last but two hours. At 10 o'clock the first night in the trenches they sent over a barrage of shells and shrapnel was bursting all around us boys in Company B, but we drove them with heavy losses on their side. You should have seen the pretty barrage we sent them with our artillery fire. It started at 6 o'clock in the morning. It didn't lose a man and only one was wounded. I was out in No Man's Land twice the first night as a guard for the working party that filled up old trench that the Boche had come up the night before. I had two bombs and my old Springfield rifle and was comported for the Boche if he came along.

The next night I was in the working party. We worked out there from 9 o'clock until 12 and after that I went to bed and slept till 2 when I woke me and I went on guard on the automatic rifle which is something like a machine gun, where I stayed till 6 o'clock in the morning. It is hard work on the eyes, looking out into No Man's Land. You can imagine there are a hundred Germans out there and when the good old "gun" comes up you find it was only the posts that held the barb-wire up, but after you have looked about so long at them they all seem to jump up and down. For the five days and nights I was up there I didn't have my shoes

off only to change my socks, because we had orders to be ready to jump out of the dugout at any moment. Did not wash my face all the time I was there. Water was a very scarce thing. We had enough to drink but it would be wasting it to wash a fellow's face in it. Since I came out of the trench I have lived in nothing but cave and dugout.

You people back home have no idea how this war has ruined the beautiful towns and places of France, and I have seen very little of it, yet every apple tree and fruit trees of all kinds are cut down and I hope that some of the towns and cities back home will ever be like this.

Of all the rats! You should see those that live with us in the cave and dugout. They are as big pretty near as rats.

I expect to get a furlough of ten days when we get out of the trenches. You see we stay so long in the front line trench, so many days in the next line and so on, until the whole regiment has been in them, and then we go to a rest camp and get our furlough. I won't be able to live in a good up-to-date home when I get back after living so long in a cave and dugout. We have even feeds now. This morning two small pieces of bread with a little jam on it and a cup of coffee. A beef stew for dinner without any beef. I traded two eggs of Bull Durham with a Frenchman for a loaf of bread and fried the bread in bacon grease. I am feeling fine and happy and in the best of health.
